Editor's note - "that" is referring to the decision to move to open note testing.

We heard **that** was the case through another district. When we inquired, this was **their** response (see third paragraph)

"Their" refers to the College Board.

I hope you're well. The test will be virtual this year; offered as a 45 min. test where only Free Response Questions will be offered. Students will receive their key-code through My-AP Classroom and/or email.

Test-Prep starts this Wednesday and is free-of-charge and optional. We will be offering this via Youtube channels and your students are being informed of this.

As for your "Open Book" inquiry, the short answer is yes. In an attempt to offer students a college-like experience, they are open to use the resources provided to best answer exam questions.
